AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious discuses — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Heudache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c., &c. Indeed, very few are the discases in which a Purgative Medicine is nut more of less required and much sick. cine is not more or less required, and much sick-ness and suffering might be prevented, if a harm-less but affectual Catharlie were more freely used. No person can feel well while a costive habit of No person can feel well while a costive habit of hody prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They ull tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, hus shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalled position and character as to forbid the suspicion of untrull.

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritting to the bowel. This is not. Many of them produce so much gripin p in and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can are from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the compliants which have been speedily cured by them, we may mention Liver Complaint, in its various forms of J m. cc, It digestion, Languer and Loss of Appetite, Listle mais, Irritability, B is us Hendache, Bhaus Fever, Fever and Ague, Pain in the Side and Loins; for, in trith, all these are but the consequence of deep action in the liver. As an aperient, they affind prompt and sure relief in Costiveness, Pill's, Cods will surfuess of the body, Ulcers and in mily of the blood; in short, any and every case where a pargative is required.

They have also produced some should and every case when a pargative is required.

They have also produced some should be freely taken in the spring of the year, to parify the blood and prepare the system for the change of seasons. An occi mail dose is into a particular and ag vate the strength of the body, and restore the wasted or discussed energies of the whole organism. Hence an occasional dose is advantageous, even though no serious d rangement exists; but unthough no serious derangement exists; but unnecessary thosing should never be carried too lar,
as every pure tive medicine reduces the strength,
when taken to excess. The thousand cases in which
a physic is required cannot be enumerated here, but
they suggest themselves to the reason of every
body; and it is confidently believed this pill will
answer a better purpose than any thing which has
hitherto been available to mankind. When their
virtues are once known, the public will no longer
doubt what remedy to employ when in need of a
cathartic incdicine.

CONSUMPTION. This remedy has won for itself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its wirtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its eures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesistate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colds. Couchs, Hoarsenles, &c.; and for Culturen it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by— This remedy has won for itself such notoriety
